30. Civil Engineering

(1)

Mr. V. K. Aravindaksha Menon *(Chief Engineer)*: Sir, I rise to move for an additional grant of Rs. 2,82,00 under "30-A-Civil Engineering—Irrigation Original". The work of constructing groynes to protect the coastal region from Manasery to Chellanam from sea erosion was programmed to be completed within six years from 1121. Since erosion in the coastal region has become the subject of a good number of petitions from the inhabitants of the locality, it is proposed to complete the work within 3½ years instead of six years as scheduled in the programme. The provision for the work in the current year's budget is Rs. 75,000 whereas the amount required is about Rs. 3,57,000. The work is necessary and cannot be postponed. Hence an additfonal allotment of Rs. 2,82,000 is required. I request the House be pleased to allow this grant.

Mr.President: Has this allotment been correctly classified? I notice that it is classified under "Irrigation". Is that correct?

Mr. V. K. Aravindaksha Menon *(Chief Engineer)*: The classification is correct. Sometimes it used to affect the irrigated areas.

Mr. President: I do not think anybody is using sea water for irrigation.

Mr. V. K. Aravindaksha Menon *(Chief Engineer)*: It is to prevent damage of lands by erosion that this work of putting groynes is made.

Mr. President: I had no idea of raising a discussion on this. I simply wanted to ask you and the Comptroller of Finance and Accounts whether this classification is right or wrong. My impression is that it is wrong.
